returned & set Center¹/₄ Cor at intersection of two lines.

Notes A.

When the East South Side Add to the Town of Northrup
was surveyed & platted, the S¹/₄ corner of the SE¹/₄ of Section
20. was est. by P. Burr. afterwards. Some 14 yrs
ago. Parker in a survey of Section 29. 8-5. moved
the North East corner further north, and a survey of
same sections by W. W. Clayton, to locate boundaries of some
tracts of lands abutting the Canal. made such survey in
accordance with our Parker Survey. This leaves the
Burr corner, at the SW Cor of SE, SE, Sec 20. Some 18 or 20
links South, of the section line, and as this corner was
the key of the East South Side addition, I recognized it
as the proper corner
